

## Processing Engine Version 24.3

24.3.4

---

### Improvements and updates

---

- As a part of the merger with Magnet Forensics, the installation path, offline registration link, and EULA have been updated

### Recommended GID version

---

If you use a standalone GID, version 32.8.8 is required for version 24.3 of Magnet Griffeye. GID 32.8.8, which is included in Magnet Griffeye 24.3, is backward compatible with the Magnet Griffeye 22 and 23 series. For more information, refer to the recommended GID versions in the user manual.
